

Experiments to try at home!

Note: Make sure you have an adult to help you when trying these experiments!

Make your own lava lamp!

You will need:

- 🍷 Vegetable oil
- 🍷 A jar or water glass
- 🍷 Food colouring
- 🍷 Alka-Seltzer™ tablets
- 🍷 Water

What to do:

1. Fill the jar two-thirds full with vegetable oil.
2. Fill the remaining space in the jar with water.
3. Add several drops of food colouring into the top of the jar.
4. Drop in an Alka-Seltzer™ tablet and watch it fizz up to create moving bubbles like a lava lamp.
